"My little boy was very bad off for two months with diarrhea. We used various medicines, but none did any good, until I chose done him any good and cured him of Chamberlain's Colic, Cholera and Diarrhea Remedy, which gave immediate relief and soon cured him. I consider it the best medicine made and can conscientiously recommend it to all who need a diarrhea or colic medicine." J. E. Hare, Trenton, Tex., Twenty-five and 50 cent packages for sale by Theo. C. Power, Druggists.

Last fall I was taken with a kind of summer complaint, accompanied with a wonderful diarrhoea. Soon after my wife's sister, who lives with us, was taken in the same way. We used almost everything without benefit. Then I said, let us try Chamberlain's Colic, Cholera and Diarrhea Remedy, which we did, and that cured us right away. I think much of it, as it did for me what it was recommended to do. John Herzer, Bethel, Berks county, Pa. Twenty-five and 50 cent bottles for sale by Theo. C. Power, Druggists.

Many who have noticed the beautifully lighted stores of Messrs. W. C. Miner, J. H. and J. C. Pecor have wondered what new style electric lamp they were using. It is, however, the Chamberlain's model, made from plain glass day glass with the Welshback incandescent burner and it can be fitted to any gas fixture in five minutes. The Welshback consumes about half as much gas as the ordinary tip burner and gives nearly four times as much light and no flickering—especially a steady soft, white light that is grateful to the most sensitive eye. CASH WAS THE MOTIVE.

Philadelphia, June 1.—A Chicago Committee, when questioned for evidence in a suit, said he did it from the highest motives. It was presumed the motive was black, but the figure isn't known.

THE IMPOSSIBLE DEFENSE.

It will do no good for Queen Li to send a telegram to the American people asking for a restoration of her throne. Might as well ask that the Democratic party be continued in power.

THIS ONLY CLAIM TO FAME.

New York, Tribune.—It looks somewhat as though Mr. Gresham were about to make his appearance in the Senate and the American Secretary of State was always ready to respond to public censure of one of his diplomatic blunders by committing another.

CHEAPER coal for the manufacturer means cheaper wages for the men in the mines. Mr. CLEVELAND knows this, and yet he and his party try to pose as special friends of the laboring classes.

Just as was anticipated, the Senate Sugar Investigating Committee exonerates all the Senators from charges of bribery or speculation in sugar stocks during the consideration of the Tariff Bill.

PRESIDENT CLEVELAND is reported to have decided to unite with Great Britain, Germany and Italy to preserve the neutrality of the treaty ports of China during the war. This action is for the purpose of keeping the ports open to commerce.

The Chairman and Secretary of the Minnesota Democratic Committee have resigned because the committee, by a vote of 20 to 3, rejected a resolution endorsing President CLEVELAND's recent letter on Tariff and the action of the House on the Tariff Bill. "Here's more harmony, Bre'r RUE."

The weekly reviews of trade report that, in spite of outgoing gold and sinking Treasury reserves, injury to crops and increased trouble in the coke regions, the tone of business and the outlook are more hopeful. Increased trade is predicted as soon as any definite action by Congress on the Tariff Bill is announced. But if Congress would pass a resolution declaring that the McKinley Law shall stand, and then adjourn and go to Hoboken, there would be such a boom in this country as never was seen before.

At the request of the Chinese and Japanese Governments, made through their representatives in Washington, the State Department has instructed United States Minister DUNN at Tokio and Mr. DENBY at Pekin to take under the protection of the United States the citizens of China in Japan and of Japan in China. This is distinctively a war measure, and although it cannot be learned at the State Department that it has been regularly notified of the existence of war between China and Japan, this movement on the part of Secretary GRESHAM indicates that he has been so advised, and is proceeding upon that information.

This is not the first time that the flag of the United States has afforded protection to foreigners in hostile countries, for during the Franco-Prussian war the United States Minister at Paris took under his care the Germans resident in that city.

The protection of the United States in this case by both parties is regarded as an evidence of their belief in our absolute impartiality.

A CIGAR-STUB, Thrown Among Rubbish Starts a Lively Fire.

The Scene Was the Chicago Ball
Grounds During a Game.

Thousands Scrambled in Between a Burned
Wire Fence and the Lives-Long Per-
sons Badly Injured in the Resultant
Panics—Money Loss About \$13,000.

Chicago, Aug. 6.—A cigar stub, which was called in the seventh inning of the Chicago ball game Sunday afternoon at the West Side park by the cry of fire, amid scenes never before witnessed at a sporting event in this city. Curiosity to see the fire led many to the grand stand where the burning was taking place, and in their frantic efforts to extricate themselves from their perilous positions they became panic stricken. They found themselves hemmed in by fire on one side and a barbed wire fence on the other, and fled in terror from the grand stand on the diagonal.

The exits were few and small, and although other means of escape were provided by the quick action of Players Ryan and Wilmett, who were in the grand stand, the panic-stricken crowd backed against the barbed fencing. Their mad rush to get away from the advancing flames resulted in the injury of scores. Cut, bruises, contusions, a broken leg, a broken toe, were the injuries sustained.

The property of the club was damaged \$12,000 before the club department extinguished the flames. A cigar stub, thrown among rubbish, started the fire.

Ames was showing the burns he had in the seventh inning when a red light began to flash and fire along the grand stand where the fifty-five spectators sit. There was 1,600 of them in the seats, and 3,000 more in the grand stand.

The breaking out of the fire caused a general rush of the people in that part of the ground to the top of the stands to take a look, as there was no longer any game in progress. In this confusion the spectators lost the sense of their position and broke for the narrow exits, which had already filled with smoke. The spectators who were in the grand stand and on the bleachers were at a safe distance from the flames and got away from the field without assistance. From that position they witnessed the destruction of the stand and the serious plight of other less fortunate spectators.

The woodwork of the stand and the platform were set afire, which around provided fuel for the flames, which gained on the imprisoned men and women before they knew it. All was confusion in an instant among the occupants of the flaming wooden structure.

When the fire was discovered and men got jammed against the sharp fence, The exits might as well have not been there. Hands, faces, limbs and clothing were cut and torn by the scorching mass of humanity in trying to find a path through the burning strands, or over them. The fence would not give way, but Ryan and Wilmett made a gap in it by using their clubs like blacksmiths. Inured to the fire, the spectators who were in the grand stand and the platform were set afire, which gained on the imprisoned men and women before they knew it. All was confusion in an instant among the occupants of the flaming wooden structure.

Five minutes after the last spectator had got out of reach of the flames every seat was being consumed. The ground will be used Monday by fencing off the burned part.

Bitter and sad.

New York, Aug. 6.—Joseph B. Hunt, 40 years old, a painter and decorator, shot and instantly killed his wife, Barbara, Sunday morning, in their rooms on Second avenue, then turned the revolver upon himself and committed what he termed a mortal sin. He was accepted by the house.

The shooting was done in the presence of three of their small children.

Hunt has long been considered mentally unbalanced. He was silent, morose, suspicious and inordinately jealous of his wife.

He was warning, but without a word placed a revolver to her head and pulled the trigger. She fell dead, and he at once put a bullet in his own brain.

A RUMOR.

Japanese Capture Three More Chinese Warships.

A Japanese Mob Attacks Chinese Residents in Kobe.

In a Riot That Followed a Number of Persons Are Wounded—Japanese in Canton Also Attacked—Frank Carpenter, the Correspondent, on the Situation.

LONDON, Aug. 6.—A dispatch to the Central News from Shanghai, dated August 5, says:

It is reported that there has been an open engagement on the Corson coast, at which three Chinese warships were captured by the Japanese. The report has not been confirmed.

A Japanese mob attacked the Chinese residents in Kobe a day or two ago, severely maltreating them. A dangerous riot ensued, in which many were injured.

A Chinese mob in Taku insulted the members of the Japanese legation as they were returning from Peking. The Taku action led to a turn which was tardily suppressed by the authorities.

The Japanese in Canton have been attacked a number of times by roughs, but so far there has been no serious trouble.

The European municipal council, of Shanghai, has warned the volunteers to be ready to act in case of rioting.

The east coast vessels which now fly American flags have been forbidden by the American consul to land munition of war in Peking.

The Chinese officials in London say they have received no information concerning the naval engagement mentioned in the foregoing dispatch. They also protest the report of the July 29 as trifling and overrated affair.

WASHINGTON, Aug. 6.—Frank Carpenter, the newspaper correspondent who has just returned from a six-month trip through China, Japan and Corea, said Sunday night:

"It is difficult to understand the political conditions which now obtain in China. The greatest danger to the Chinese empire in its contest with Japan is the lack of force in the countrymen in China in the want of devotion to the general government on the part of the Chinese, and the fact that the great Chinese empire is composed of powerful independent states which are not anxious to co-operate with each other and which may not co-operate with the central government on the part of the Chinese. The Chinese are a commercial people. They do not wish to be disturbed in their money-making pursuits. They have no doubt whether those who control the empire will be able to secure the hearty support of the integral portions of the empire is the most serious factor in the situation."

A SNAKE STORY

That Beats Any Snake Story That Was Ever Told.

CITY OF MEXICO, Aug. 6.—The doctor of the city having the attention called to a most remarkable case of affliction, the patient being a young man named Jose Londerick, who lives near the town of Cuautla. The locality in which the man lives is remote situated, and the news of his existence was slow in reaching the outside world, although he has been afflicted all his life.

His skin, including the face, is the exact counterpart of that of a rattlesnake, having the same green coloration, and the scales skin once a year. It comes from him all intact, manifests much the same disposition as a snake during the shedding period. There is not a hair upon his body, and the scales which cover him become entirely blind when shedding his skin, and it is with the greatest difficulty that he can see at any other time, as the new skin forms in a circle around the eyeballs, covering the entire eyes.

He has been examined by a large number of physicians, and they all are greatly interested and puzzled over the wonderful phenomenon. The old residents of the neighborhood in which he lives are inclined to believe that the infliction of his mother, who, it is said, ate too freely of rattlesnake flesh to cure a disease of the blood just prior to the birth of the baby, which was born with many startling resemblances to the reptile.

NEW ENLISTMENT LAW

Improves Soldiers' Status and Likely To Secure Success.

LEAVENWORTH, Kan., Aug. 6.—A telegram was received by the commander at Ft. Leavenworth Saturday from Washington announcing that President Cleveland had signed the Oathswear Bill regarding the enlistment of 100,000 men for three years.

The new law reduces the term of all enlistments from five to two years, and does away with the provision that men could be re-enlisted after the two years.

The bill provides for the payment of wages, and the status of the enlisted men is improved.

The Proctor law, which did not allow soldiers to re-enlist after serving ten years, is annulled, and members of the army can continue in the service until released by the president.

The new law also provides for the payment of wages, and is calculated to raise the standard of private soldiers.

The bill is designed to increase the pay and greatly lessen the number of desertions.
